PROFESSIONAL SUMMARY

Statistics graduate with a strong foundation in statistical modeling, machine learning, and deep learning. Passionate about leveraging data-driven techniques to extract meaningful insights and build intelligent solutions. Skilled in developing predictive models with Scikit-Learn, designing neural network architectures with TensorFlow/Keras, and deploying full-stack AI applications. Proven track record of delivering end-to-end ML projects, from data preprocessing to production deployment, with a commitment to continuous learning and AI innovation.

TECHNICAL SKILLS

Machine Learning & Deep Learning: Scikit-learn, TensorFlow, Keras, PyTorch, NLTK

Data Analysis & Statistics: Pandas, NumPy, SciPy, SQL, Regression Analysis, Hypothesis Testing, Probability Theory, Quantitative Research

Data Visualization: Matplotlib, Seaborn, Plotly

Development: Python, FastAPI, Streamlit, Git, Jupyter, VS Code, Cursor, MS Office

Data Management: Data Cleaning, Normalization, ETL Pipelines, Maintaining High-Quality Research Datasets

FEATURED PROJECTS

StatWise — Automated Statistical Reporting Platform

Created an automated reporting platform for SMEs — upload Excel/CSV data to receive comprehensive analysis including descriptive statistics, trend analysis, forecasting, and downloadable PDF reports.

FastAPI scikit-learn pandas PostgreSQL Tailwind CSS

Heart Disease Prediction — Healthcare Classification App

Developed an end-to-end ML application to predict heart disease risk based on clinical parameters including ECG results, cholesterol, and blood pressure. Implemented full data preprocessing pipeline.

Python Scikit-learn Pandas Streamlit

AgriTech — AI-Powered Agricultural Advisory Platform

Built an AI-powered platform for Bangladeshi farmers featuring a Bengali chatbot, crop recommendations, disease detection via image upload, fertilizer calculator, and government subsidy information. Deployed as a full-stack web application.

Node.js AI Tailwind CSS JavaScript

VocabPro — SaaS Vocabulary Learning Platform

Developed a subscription-based SaaS platform delivering 10 daily English vocabulary words with Bengali meanings via WhatsApp and email. Includes AI chatbot with 6 personas, weekly quiz contests, streaks, and payment integration.

FastAPI PostgreSQL WhatsApp API AI Stripe

Spam SMS Detection — NLP & SMS Classification

Built an automated text classification tool to detect fraudulent messages using NLP techniques. Demonstrated proficiency in cleaning and managing unstructured text data.

Python NLTK Scikit-learn NLP

ADDITIONAL PROJECTS

Exploratory Data Analysis: BD Cricket Analysis, BD Road Accident Analysis, BD Temperature & Rain Analysis, Diwali Sales Analysis, IPL Data Analysis, Shop (US Retail) Data Analysis, Lego Data Analysis.

Classification & Prediction: Rock and Mine (Sonar) Prediction (85% accuracy), Ad Click Prediction (98% accuracy), Loan Prediction, Energy Consumption Prediction.

EXPERIENCE

Project Manager | Dhaka College Data Analytics Club

May 2024 – Nov 2024

Spearheaded innovative data analytics projects, inspired teams, and drove hands-on learning. Mastered leadership, strategic execution, and collaboration while delivering impactful data-driven solutions.

Committee Member | Volunteer for Bangladesh — Dhaka District

Oct 2024 – Present

Spearhead events, strategize initiatives, and mobilize teams to create meaningful social impact. Optimized leadership and coordinated diverse projects to drive community transformation.

Management Trainee | Youth School for Social Entrepreneurs (YSSE)

Nov 2024 – July 2025

Forged partnerships, analyzed markets, and crafted growth strategies. Enhanced expertise in negotiation, innovation, and collaboration while expanding organizational reach.

Event Coordinator | Bangladesh Mathematics Olympiad

Jan 2024 – Present

Led nationwide math Olympiad events, streamlining logistics and ensuring seamless operations. Partnered with teams to promote mathematical achievement among young students.

EDUCATION

Bachelor of Science in Statistics | Dhaka College, Dhaka

2022 – Ongoing

CGPA: 3.25/4.00. Specializing in Machine Learning, Deep Learning, and Exploratory Data Analysis. Bridging theoretical statistics with practical, high-impact technical solutions.

Higher Secondary Certificate (Science) | National College of Education

2019 – 2021

GPA: 4.92/5.00. Rigorous academic program honing analytical thinking and problem-solving abilities.

LANGUAGES

English (Professional Working) | Bengali (Native)
